

KENDARI BATH COLLECTION  
MODERN. SLEEK. RELIABLE.

# KENDARI

New European-inspired collection brings balance to the bathroom.

Designed to create harmony and balance, the New Kendari Collection adds minimalism to the Delta brand's international portfolio. The suite features lavatory faucets at a standard, mid, and vessel height in addition to a wall-mounted option complemented by shower and tub / shower combinations in a chrome finish.

Corresponding Kendari accessories complete the collection with towel bars, glass shelves, robe hooks, towel rings and tissue holders.

The graceful and charming collection boasts soft, contemporary design and rounded edges, suitable for various bathroom configurations and style preferences.
